NEW ZEALAND'S MOST COMPLETE
RANGE OF SPRAYING SOLUTIONS

TAKE **CONTROL** *of your spraying*

ISSUE 63 SPRING 2026

- Better Crops
- Cleaner Pasture
- More Grass

TAKE CONTROL

of your spraying

For Phil Bryan of Top Road Dairy Ltd in Patetonga, owning the right sprayer isn't just about convenience – it's about staying in control of the farm.

Phil upgraded to the BA LS1300 after realising he'd outgrown his previous sprayer. With 100-odd hectares of maize requiring pre-emerge applications, new blocks overrun with broadleaf and thistles, and a farming operation that handles everything in-house – no contractors – timing is everything.

The LS1300 has delivered where it counts. Phil has seen strong results tackling willow weed in swampy peat areas and rates the simplicity and flexibility of the system highly. Quick to use, easy to get onto when a weather window opens, and reliable straight from the box – it's covered a lot of ground without missing a beat.

Two years in, Phil has no hesitation about the investment. "For our operation, it 100% pays for itself."

Phil Bryan, Dairy Farmer, Patetonga

We don't have a contractor on farm - we do it ourselves. It's just timing, you know. You're in control of your own destiny.

Phil Bryan
Dairy Farmer, Patetonga

LM SERIES

SPRAY IN LESS TIME

Cover more ground in less time - that's what the LM Series delivers. Turn a chore into a pleasure with a 1150L capacity tank, a fully hydraulic 12m boom incorporating a 30-degree wing tilt function, and electric controls as standard. The LM Series enables you to cover more ground faster without leaving the cab.

FEATURES:

- 900 or 1150 Litre UV rated Polyethylene T-shaped tank
- Heavy duty hot dipped galvanised CAT1/2 frame
- Bertolini 75-Litre POLY Pump for liquid fertiliser readiness
- Built-in 10L handwash tank and 60L flush tank
- Built-in induction hopper
- 12 Metre fully hydraulic M Boom
- Wing lift allows you to move the boom with the contour of the terrain.
- Built-in breakaways ensure you can safely clear obstacles.

“It had everything I needed
at a price that made sense.”

Ryan Cannell, Dairy Farmer, Te Aroha

STILL IN CONTROL

TWO YEARS WITH THE BA LM SERIES

Ryan Cannell of Te Aroha upgraded to the BA LM1150 Linkage Sprayer back in 2024. Two years later, he has no second thoughts. Just less time in the tractor and more time getting on with the farm.

When Ryan Cannell of Te Aroha upgraded to the BA LM1150 Linkage Sprayer back in 2024, he was at breaking point with his old setup. Two years later, he has no second thoughts.

Ryan runs a dairy operation in Te Aroha with a mix of maize cropping and pasture work: pre-emergence, spray-outs, and re-grassing across terrain that's seen more than its share of challenges. After Cyclone Gabrielle put him through 13 floods in 13 months, weed pressure became a serious issue. The LM gave him the capacity and the boom to hit it hard.

“I spray a lot more now than we ever used to,” says Ryan. “A lot more pasture spraying.” The time savings have been the headline win. Going from a 6-metre front-mounted boom and a sub-500 litre tank to the LM1150 with its 12-metre M Boom has changed how Ryan works through a job. His father put it plainly when Ryan came back from spraying a maize paddock over a kilometre away: “Are you done already?”

The induction hopper has made a difference too, something Ryan didn't anticipate when he first bought the unit. “Mixing spray is awesome with that induction hopper on it. Cleaner and safer. You're mixing at normal height, no climbing ladders. And it's big enough that I can fit everything I need for a whole load in at once.”

On hilly ground, the hydraulic wing lift on the M Boom earns its keep. “I can spray sides of hills I could never spray before, one boom going up, the other coming down. It was flatland spraying only before.”

For anyone hesitating over the purchase, Ryan's view hasn't changed since he bought it. When Todd at Piako Morrinsville walked him through the LM, the value was obvious.

NEW

X FOLD MANUAL BOOMS

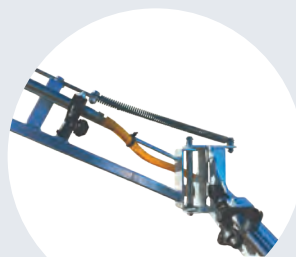

3M, 4.5M, 5.5M AND 6M SMALL MANUAL BOOMS

BA's new range of booms offers greater customisation options for your sprayer. Designed for practicality, they make it easier to fit through gates, while spring-return breakaways help protect the boom from accidental impacts.

FEATURES AND BENEFITS

- Solid galvanised steel construction for long life
- Stainless steel boom tubes for long term reliability
- Wet parts compatible with most chemicals and fertilisers
- Arm design protects nozzles from damage
- Booms include mounting brackets as standard
- Towbar mount accessory available for mounting on utes, ATV's or UTV's
- 5.5m unit only 1.5m wide closed – ideal for compact deckmount and trailer sprayers, easy gateway access.

AUTOMATIC SPRING-RETURN BREAKAWAYS

If an arm strikes an obstacle, the breakaway trips instantly, lifting the arm upward and away from the ground to protect the boom and nozzles – then resets automatically so you can keep spraying without stopping.
