SPRING
SPRAYER SPECIALS

New Zealand's most complete
range of spraying solutions

Norman Young, Carrot Grower, Ohakune

NO TWO FARMS ARE THE SAME – NEITHER ARE OUR SPRAYERS **BUILT TO FIT YOUR FARM**

Every farm has its challenges – from rolling paddocks to rough terrain and large blocks. That's why BA Pumps & Sprayers offers a wide range of tank, boom, and control options – so you can configure a sprayer to suit the way you farm. Whether you're after more capacity, easier controls, or smarter technology, we'll help you find a setup that works for your operation – now and into the future.

WHY FARMERS CHOOSE BA PUMPS & SPRAYERS

- Built tough in NZ for real farm conditions
- Tank, boom, and control options tailored to your needs
- Backed by a nationwide service and dealer network.

FEEDBACK FROM THE FIELD

After 20 years with a self-propelled unit, Ohakune grower Norman Young upgraded to a BA 1300L LS Linkage Sprayer with a 1500L Front Mount Tank and 15m X2 Boom – a setup tailored to suit his large-scale carrot operation, spread across a 20km radius. He needed more capacity, easier transport between blocks, and a sprayer that was straightforward to use. Working with the BA team, the sprayer was configured to meet the specific needs of the farm.

I've been spraying all my life, so I knew what I was after. The new BA setup has been a big step up. It's easy to use; the boom isn't too complicated, and the console is excellent. I can shift it around easily, which is important with our blocks spread over 20kms. It's also good knowing I've got backup when I need it - that was a big factor in choosing BA for my sprayer *Norman Young, Carrot Grower, Ohakune*

BA LS SERIES

COMPACT, CAPABLE, CUSTOMISABLE

The LS Series is ideal for general farm use – compact, reliable, and easy to upgrade. Pair with a Hexagon GPS system for full rate and section control.

FEATURES:

- Available in 1000 or 1300 litre models
- Robust, heavy duty galvanised CAT2 frame
- Bertolini 126 LPM, 215 psi
- 3-section incab electric control as standard
- Super X2 full hydraulic boom with outer wing lift control
- Integrated self levelling
- Durable self returning outer breakaway design
- Stainless Steel liquid tubes
- TeeJet AI XR low drift nozzles
- Optional 5 section control

LS SERIES
FROM \$33,999

FEEDBACK FROM THE FIELD

“By integrating the LS1300 with the 12-metre Super X boom with lift Beacon Hill Farm has enhanced efficiency, safety, and precision in its spraying activities. The tailored features of the equipment, coupled with personalised support from the local dealer, have allowed us to optimise our spraying operations effectively.”

(LK1600 18x2 Lift & ISO ex demo)

BA LK SERIES

FOR LARGE FARMS & CONTRACTORS

Built for serious capacity and extended reach, the LK Series is ideal for large farms and contractors. Choose from 1600L or 1900L tank sizes and boom widths up to 18 metres. Add optional features like GPS and front-to-rear transfer to boost efficiency and get the job done faster.

FEEDBACK FROM THE FIELD

"The galvanised frames were a deal breaker when it came to buying my sprayers and I really like the practicality of the BA equipment."

Will Hasthorpe, Will's Spraying & Pasture Services

BEHIND EVERY BA SPRAYER IS A TEAM OF HANDS-ON ENGINEERS

With over 50 years of combined experience, Richard and Gavin lead our in-house R&D team, bringing hands-on knowledge to every sprayer we build. From initial concept to paddock testing, their focus is on making sure BA gear works the way Kiwi farmers need it to – tough, practical, and fit for purpose. It's their experience and attention to detail that give BA Sprayers their reputation for reliability.

SMARTER SPRAY CONTROL. LESS WASTE.

UPGRADE YOUR SPRAY CONTROLLER TO YOUR NEW LM / LS / LK

Upgrading your spray controller is one of the most effective ways to improve spray accuracy, reduce spray product use, and make life easier in the cab.

1 TEEJET AUTO RATE CONTROLLER

SIMPLE, PROVEN, COST-EFFECTIVE

Key Benefits

- Automatically adjusts spray rates as ground speed changes.
- Saves up to 10% on spray product use by reducing over-application.
- No ongoing subscription fees.
- Proven, reliable technology trusted by farmers for over 30 years.

Things to Consider

- Needs a separate speed input (GPS, wheel sensor, or transmission).
- Requires a separate guidance system (foam markers or GPS).

2 HEXAGON GPS GUIDANCE AUTO RATE CONTROLLER

WITH AUTO BOOM SECTION CONTROL THE ALL-ROUNDER FOR PRECISION SPRAYING

Key Benefits

- Fully automatic spray rate adjustment based on ground speed.
- Auto boom section control – stops spraying over already applied areas.
- Reduces spray product wastage and operator fatigue. Save up to 20% on product.
- GPS console can be used for guidance with other implements.
- Free-to-air GPS & GLONASS satellites – no subscription fees.
- Upgradeable to DGPS, RTK, and auto-steer.

Things to Consider

- Adds an extra in-cab console.
- Moving between tractors can be time-consuming (consider additional wiring kits for quick transfer).

3 ARAG IBX100 ISOBUS SPRAY RATE CONTROLLER

SEAMLESS PLUG & PLAY INTEGRATION

Key Benefits

- Simple ISOBUS plug-and-play connection with compatible tractors.
- Uses existing tractor console – no extra screens required.
- Supports auto boom section control.
- Quick and easy to switch between multiple tractors.

Things to Consider

- Unlock codes may be required from tractor manufacturers (additional cost).
- Auto section control compatibility and unlocks vary between tractor brands.
- Suitable for ISOBUS-ready tractors. Consoles also available otherwise.

3. IBX100 SPRAYER ELECTRONIC CONTROL UNIT

FROM \$7,850

IBX100 Sprayer is the control unit connected to an Arag monitor or an ISOBUS Virtual Terminal that allows managing all the most important and advanced functions of a crop sprayer. Using a single screen, IBX100 Sprayer allows viewing all the basic parameters for a correct spraying control.

Which controller is right for you?

The best controller depends on your tractor setup, level of automation, and how often you change machines. Our experts can help you select the right spray controller to suit your sprayer and your operation.

RICHARD SKEATES - R&D Lead

GAVIN MOORHOUSE - Design Engineer

Our job doesn't stop at the design stage. We see the build through, test it, and make sure it delivers in the field

The new BA Pumps & Sprayers LM Linkage Sprayer allows you to cover more ground with complete control from the tractor seat.

**BA LM SERIES
THE PROFIT MAKER**

BA & DONAGHYS

PERFORMANCE FIRST

PAYBACK YOUR LM LINKAGE SPRAYER IN 4-8 MONTHS WITH BA AND N-BOOST

Using Donaghys N-Boost with your BA Sprayer isn't just good practice – it's a profit-making combo.

More Utilisation. Faster Payback.

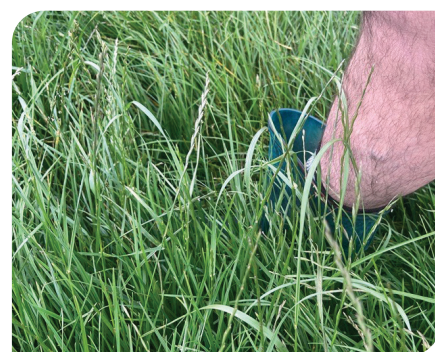

Spraying dissolved urea + N-Boost improves nitrogen utilisation efficiency. The returns speak for themselves, see the Donaghys calculator to understand for your farm.

Real Farm Payback (100ha)*:

Scenario 1: Two Solid Urea applications and three N-Boost system applications in a season = **\$41,000 more profit**

Scenario 2: Six N-Boost system applications in a season = **\$82,000 more profit**

That's enough to potentially pay off an LM Linkage Sprayer in under **4-8 months**, depending on your application strategy.

Using N-Boost and urea

CALCULATE
YOUR ROI >

Grass is the foundation of our system. N-Boost helps us grow more and lifts the utilisation of N by our pasture. Our pasture quality has increased significantly by improving our response to Nitrogen and also giving us the ability to spray for weeds while applying Nitrogen and N-Boost at the same time. The use of the N-Boost system has a great ROI for our farm and gives us more confidence in grass availability, particularly in early spring"

Mark Harris, Farmer & BA GM

*Based on Donaghys trial data. See donaghys.co.nz for full details.
